

## **Integrated Energy Backup Systems**

**Fight effectively against power outages, load shedding and voltage variations**

***Tired of load shedding,  
Repeated power outages,  
Voltage drops that damage your appliances?***

***EAS Consulting has the solution  
To your problem : The Anti-Shedding Kit***

*Th operating principle is simple.*

The Kit is set up between the network termination and Your appliances.

The batteries are recharged using the network when An outage or voltage drop occurs then the battery Takes over.

Our Kit range is wide, you can get it from 500 to 8000 Wh.

You can contact us by email or by phone to [eas.consulting@sfr.fr](mailto:eas.consulting@sfr.fr)/ 00.33.556.34.75.29

In order that one of our technicians design you a key kit custom hand.
