

EAS Consulting offers solutions for rural electrification, remote sites and industrial applications.

Energie Afrique Service Consulting is a French company specializing since 2011 in the design, sizing and exporting solutions permitting energy independence, by using renewable energy and especially the photovoltaics.

We offer a wide range of products and services to our customers, allowing them to carry out their rural electrification projects, isolated sites of power, and autonomous power of industrial or professional applications.

Since 2011, Energie Afrique Service Consulting conducted several autonomous facilities in energy and especially on behalf of renowned customers located in Africa.

Do not hesitate to contact us at any time.
